

Dominik Weber

Software Engineer

dominik-weber.name

[Mödling, Austria](#)

About me

Although I'm a trained software engineer, I view myself as a problem solver. This means that I'll use the best tools available to solve the task at hand.

Work I'm interested in

I particularly excel at the intersection of product design, software design, and implementation.

Experience

Software Developer

Springtime GmbH

📅 August 2015 - Now

Design and development of a system to create actionable knowledge, including single-page application and backend development.

CTO

Wattmann Tarifmanagement KG

📅 October 2013 - Now

Gather requirements, design and implement software to streamline and automate processes and strategic thinking.

Intern

Upper Solutions Ltd

📅 July 2013 – September 2013

Implementation of an automatic UI-test-system to replace manual GUI, functional and performance tests.

Education

BSc in Software Engineering

University of Central Lancashire (England)

📅 September 2014 – June 2015

Skills
